

Report of the Grading Director Season 2021-22

I am happy to continue as Grading Director for the coming season.

All matches in both the 2020/21 online competition and 2021/22 over-the-board competition were entered into LMS (League Management System) with the results automatically forwarded to the new ECF Rating Database.

There was one issue where a fixture had been postponed but the result entered on LMS with the original fixture date. Thus the date of the result on was incorrect. I decided that, as the correction would entail a lot of work and the error would have little effect on the current grade, no action would be taken.

I am not aware of any fines being imposed on non=ECF members,

Peter Sherlock
